HOW TO MAKE IT

Newspaper Snowflakes

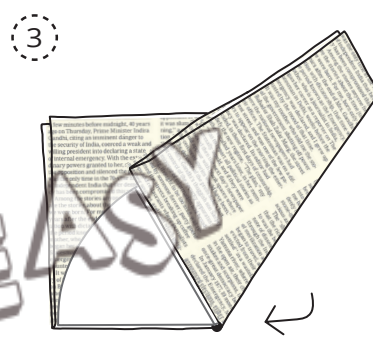

To make the snowflakes, you can use newspaper, magazines, ad inserts, construction paper, wrapping paper, etc. and choose from sizes 8 x 8 in (20 x 20 cm), 11 x 11 in (28 x 28 cm) and 16 x 16 in (40 x 40 cm). Snowflakes made from newspaper look great when they're carefully and lightly painted with watercolors after cutting them out.

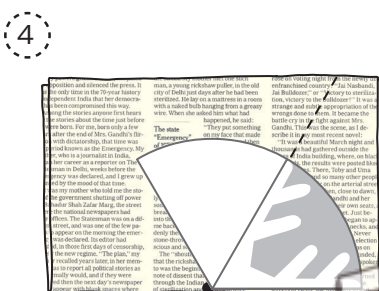

Print out the template in your chosen size and cut it out. Fold some newspaper that's a similar size in half.

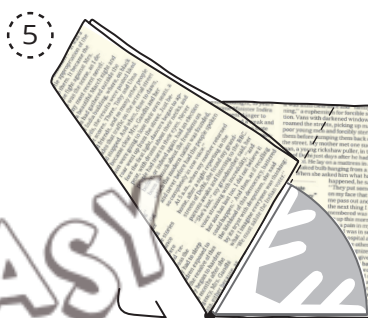

Place the left side of the template flush with the bottom edge as shown in the picture. Mark the tip with a pencil.

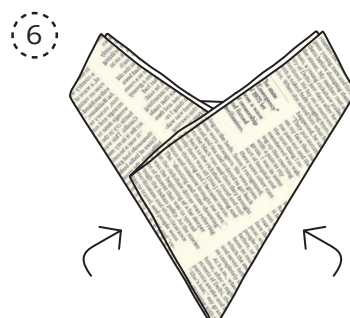

Fold the right edge of the newspaper to the left up to the line on the template. Score the edge well with your fingernail.

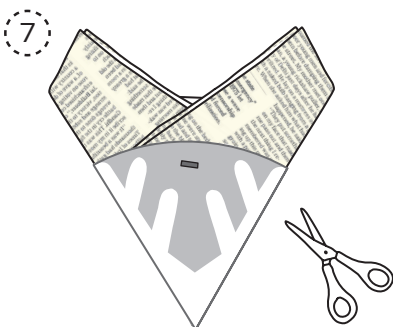

Unfold the paper. Shift the template to the right with the tip at the center and flush with the bottom edge again.

Fold the left edge of the newspaper to the right up to the line on the template. Score the edge well with your fingernail.

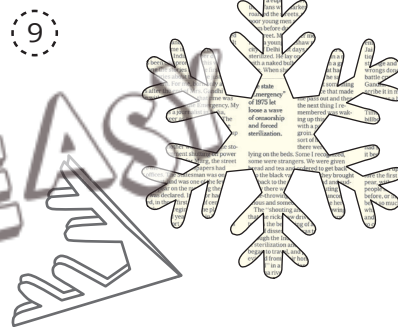

Remove the template and fold the left and right sides of the newspaper towards the center. Score the edges.

Fold the template along the center line and slot the newspaper all the way into the template. If necessary, staple within the gray area.

First, cut off the upper part of the newspaper. Then cut out the entire gray area. Only the snowflake shape is left.

Remove the template. Carefully unfold the newspaper snowflake and smooth it out. If necessary, iron the snowflake flat.

Nr. 1

Minimum paper size:
square 16 x 16 in (40 x 40 cm)
or circular Ø 16 in (40 cm)
