HOW TO DO IT

Flower Bouquets

1

Choose a bouquet and print it out.

2

Cut off the outer frame along the solid line.

3

Score along the broken lines with a ruler and a nail file.

4

First fold the top right triangular part backwards.

5

Then fold the whole left-hand part around the back.

6

Lastly, fold the triangular area that's now sticking out to the right over on top of the lower half and stick it down.

7

Now you color in the bouquet with colored pencils or felt-tip pens and trim off the top part around the flowers.

8

Lightly squeeze the two outer edges of the bouquet together so that the whole thing is more conical than flat.
