## HOW TO MAKE IT

# Rolling Paper Beads

1

For the paper beads, you'll need: printing paper, a wooden skewer, scissors, a glue stick and string.

2

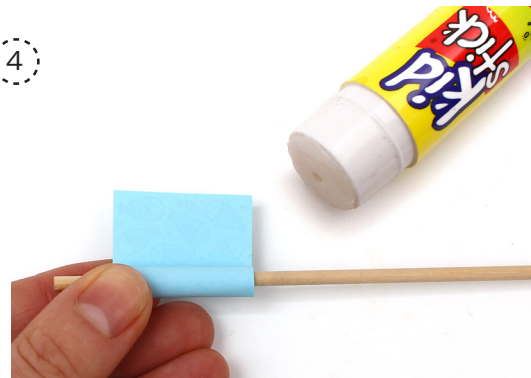

Print out your chosen templates and cut them out. If you like, you can color the templates beforehand.

3

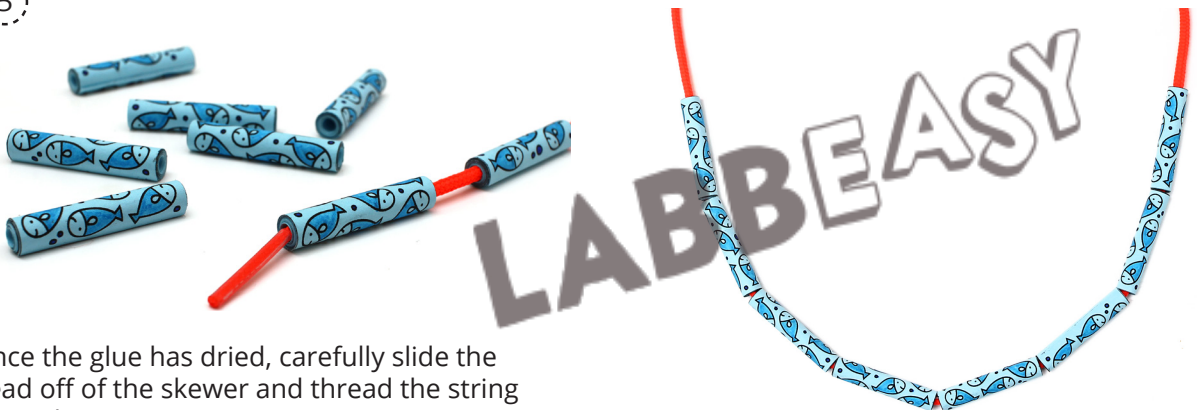

Roll the cut out paper strip as tightly and as straight as possible onto the wooden skewer. Be sure the side with the motifs is facing out.

4

Carefully apply glue to the last 1-2 cm of the strip and roll it up, pressing firmly.

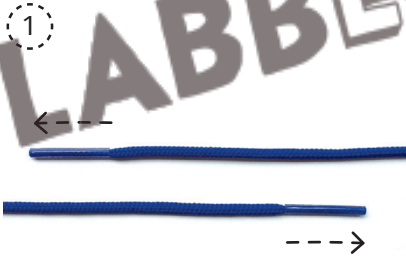

5

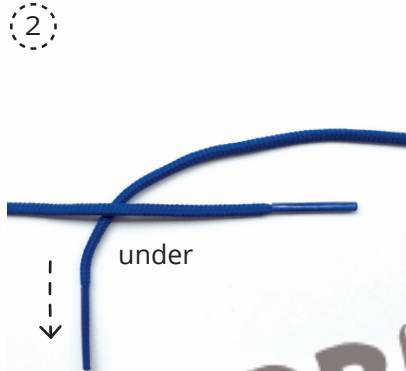

Once the glue has dried, carefully slide the bead off of the skewer and thread the string through it.

HOW TO MAKE IT

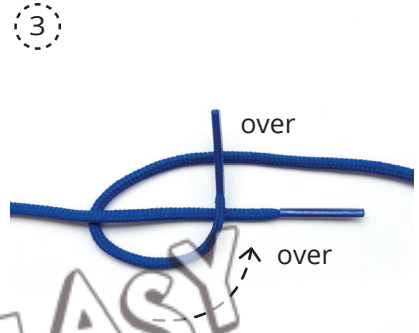

# Knots for Size Adjustable Necklaces

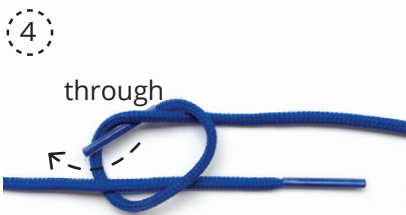

Place the two ends of the string parallel but going in opposite directions.

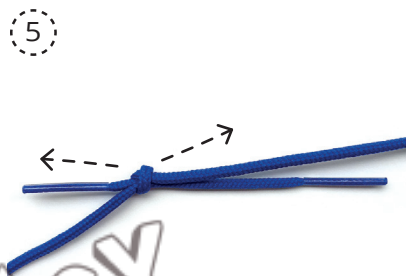

Bring the upper end down and underneath the other end of the string.

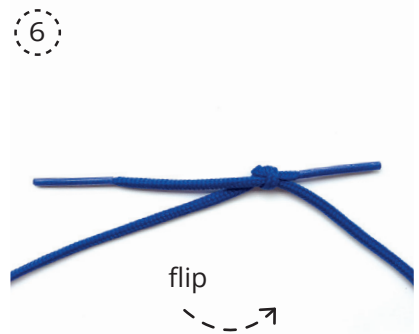

Now bring the same end up and over both strings, forming a circle.

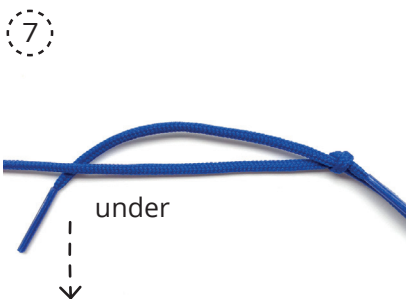

Pull the end of that thread under and through the upper thread. This forms a loop.

Pull the loop nice and tight until it forms a knot.

Flip the whole thing over and now we'll knot the other end of the string.

Repeat steps 2-5 with this end of the string.

Now there are two knots. You can move them by pulling the ends of the string.

You can now adjust the size of the necklace as needed!
