## HOW TO MAKE IT

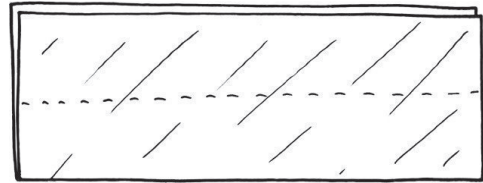

# Paper Cutting Gold Stars

1

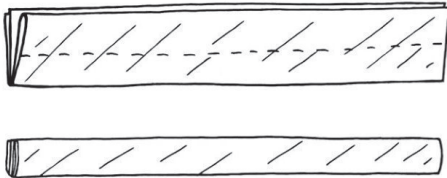

Fold a sheet of gold foil (8x10) in the middle, unfold again and cut neatly along the folded line.

2

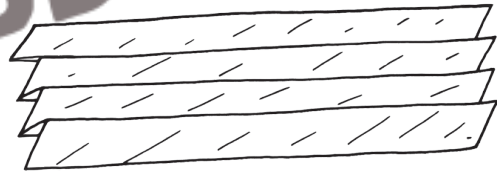

Fold the two halves lengthwise in the middle and smooth them out. Both folded strips should now measure 8 x 3 in.

3

Fold the strips twice again lengthwise to make them 8 x 1 in.

4

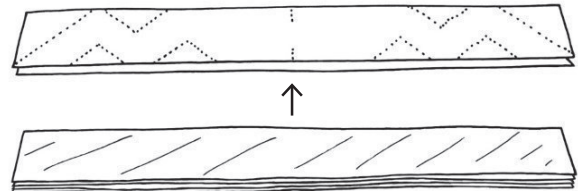

Unfold both pieces, fold them again into leporellos using the fold lines you created and then smooth them out.

5

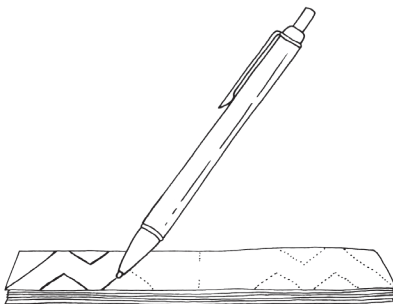

Choose a star shape. Cut out the corresponding pattern and the picture of your chosen star.

6

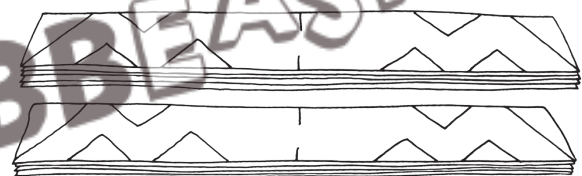

Fold the pattern strip along the dotted line and slide one of the gold foil leporellos into the fold.

7

Use a ballpoint pen to trace the pattern. Press down hard. This will transfer it to the gold foil.

8

Indent the pattern onto the second gold foil leporello in the same way.
