## INTRODUCTION

# About the 'Kids' puzzles

Fitting things together comes naturally to us. Our thinking and behavior tend toward arranging small parts together into a bigger whole. This is why so many people enjoy doing puzzles! A puzzle isn't only a game that requires patience but also a symbolic and easily understood metaphor for community and solidarity. The many 'I' parts come together to form the greater 'we' image.

These puzzle pieces take the shape of children and illustrate social interconnectedness especially well. The huge puzzle pieces come in three patterns - each with or without smiley faces.

In these materials you'll find 12 templates for 'kids' puzzles. The huge puzzle figures give you endless possibilities to create astonishing, collaborative works of art at whatever scale you like... AWESOME!
