HOW TO DO IT

Color-and-Collage - Hibernating Animals

1

Print out the template of your choice and color it in according to your own scheme. We recommend mixing wallpaper paste into water-based or tempura paints in several colors.

2

Once everything has dried, cut out all the pieces and arrange them together, using the dotted lines as a guide.

3

Collage the pieces together by glueing them onto a sheet of paper. If you like, you can first design a fitting background!
