HOW TO DO IT

Sun Catcher - Large

1

Print out the desired templates for large sun catchers, each twice on heavy printing paper. The deep black lines are easy to see on the black paper. You can also use different colored paper.

2

Fold both sheets of card in half along the middle lines.

3

Cut out the motifs along the outlines through both layers of card.

4

Cut out the center parts along the inner contour lines.

5

Unfold both motifs.

6

Stick torn or cut tissue paper onto the printed side of one frame until the inner area is covered.

7

Stick the second frame onto the first with the edges aligned.

8

Cut off the tissue paper that's sticking out from the outer edges and hang the sun catcher in the window.
