HOW TO DO IT

Fingerprints

You can make fingerprints with pretty much any color. You can use paint directly on your fingertips or use an ink pad, but bear in mind that it will take a day or two for ink to wash off properly. Printing with different fingers will give you different shapes:

UPPER FINGERPADS

The upper finger leaves a longer fingerprint.

THUMBS

The thumb leaves an oval print.

FINGERTIPS

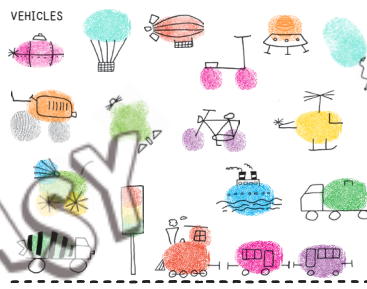

The fingertip leaves a small dot.

FOR COPYING

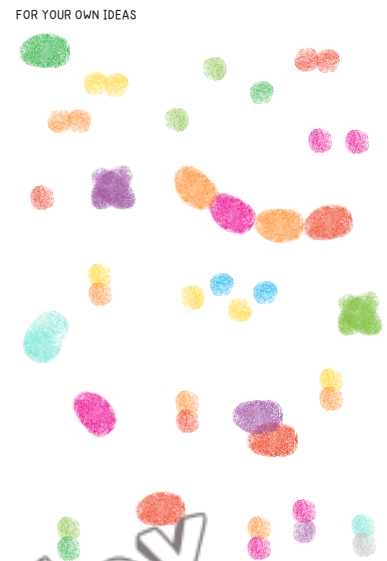

On the worksheets for copying you'll find pre-printed fingerprints. You simply copy the designs from the field above onto them with a fineliner or ballpoint pen.

FOR PRINTING

On the printing worksheets you copy the fingerprints from the upper field in whatever colors you like. Then you copy the designs onto them.

FOR YOUR OWN IDEAS

On the last two pages you'll find lots of different fingerprints which you can use to invent your own characters.
