## HOW TO DO IT

# Embroidery Patterns - Easter

1

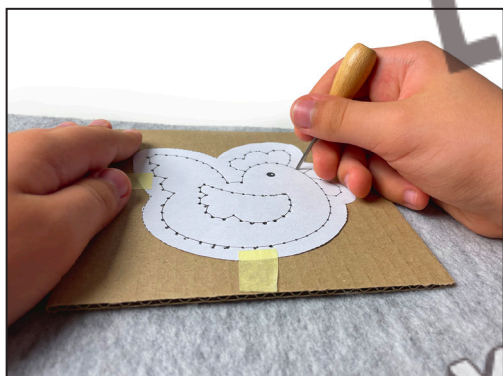

Print out your chosen pattern on white paper and cut it out along the dotted line.

2

Tape the pattern onto the surface that you want to embroider.

3

Pierce holes through the dots with a piercing tool. For this you should place a piece of felt, cutting mat or some newspaper underneath.

4

Carefully remove the pattern template from the surface. Keep the template as a guide whilst embroidering.

5

If you like, you can connect the dots with a pencil, so that you can see the shape better when you stitch.

6

Cut a length of embroidery yarn and tie a knot at one end, leaving a little extra at the end. Thread the other end through the eye of an embroidery needle. Push the needle through a hole from the back to the front of the pattern, so that the knot is at the back.

7

Stitch your pattern alternately from back to front and vice versa, up and down.

8

When you get to the end, keep stitching the pattern back in the other direction to fill in the gaps.

9

When you're done, tie the two ends together at the back.

10

Last, draw the eyes with a pen or a pencil... WOW!

**LABBEASY**  
**INSPIRATION**

You can also do steps 2-8 on white card stock...

... or on a paper plate... WOW!
