HOW TO MAKE IT

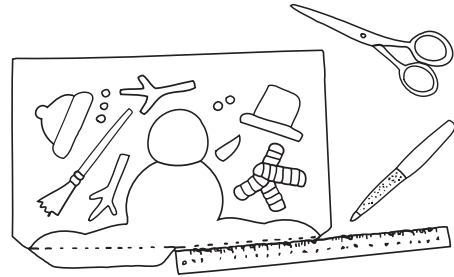

Pop-Up Cards - Winter

1

Print out the base card and your chosen design on heavy printing paper. Color the pictures. You can arrange and add pieces as you like.

2

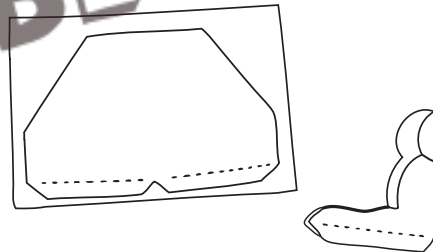

Cut out the tabs by cutting along the solid line. Score slightly above the dashed line using a ruler and a nail file.

3

Cut out the main figure and any individual pieces you like, leaving a small white border around them- this makes it easier and it has a nice effect.

4

Fold the main figure down the middle so the tabs are exactly on top of one another and then unfold again. Print page 11 'Make Your Own' on paper.

5

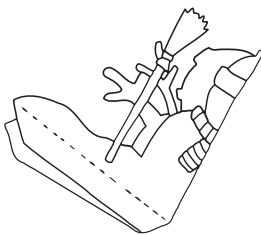

Arrange the pieces inside the frame how you want to glue them. The pieces shouldn't go over the edges, otherwise the card won't fit into an envelope.

6

Since there's no background, only put glue on the parts where the pieces overlap.

7

Once the glue dries, fold the figure in half again. Be sure the tabs are still exactly on top of one another and then unfold again.

8

Glue the tabs of the figure onto the base card. If you like, print the labels, cut one out and glue it to the inside or outside of the card.
