Christmas Paper Baubles

①

Print the desired template on white or colored paper. If you like, you can color in the strips.

②

Cut out the strips.

③

Score the strips along the gray lines with a folding tool or a nail file, and carefully press in the semicircles.

④

Press the strips flat again. Stick the ends of the first strip together to form a ring.

⑤

Stick the ends of the second ring together to form a ring, and slide it over the first ring as shown in the picture. The areas with the curved gray fold lines should be visible on both parts.

⑥

Thread the third strip between the two rings and likewise stick the ends together to form another ring.

⑦

Slide all the rings into place so that the areas with the folded semicircles are visible.

⑧

Carefully press all the semicircles inwards...

⑨

... until the Christmas bauble is finished!

⑩

You can hang the baubles on thread.
