HOW TO DO IT

# Little Flowerpot

1

Print your chosen motif on white paper.

2

Cut along the solid line to remove the frame.

3

Color in the flowers and soil using a colored pencil or felt-tip pen.

4

Cut slits along the black lines to the left and right of the soil with a craft knife.

5

Print out the sheet containing the flower pots, cut out the desired design, and color it in.

6

Slide the left tab of the pot through the left-hand slit and stick it down on the reverse.

7

Now slide the right tab through the right-hand slit and attach this from behind. Now the pot should bulge out nicely.

8

To finish, cover the back of the sheet with glue and fold it together.
