HOW TO MAKE IT

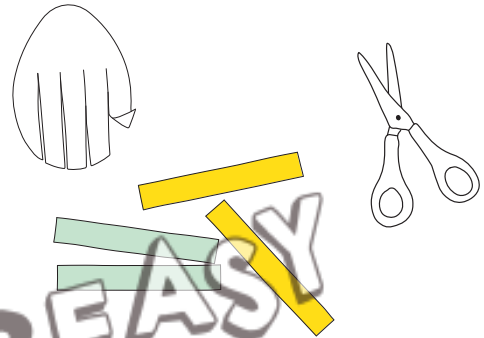

Woven Eggs

1

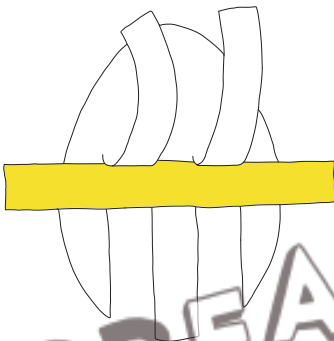

Print out your chosen template and paint it. The woven patterns look best when the strips and eggs are painted in different colors.

2

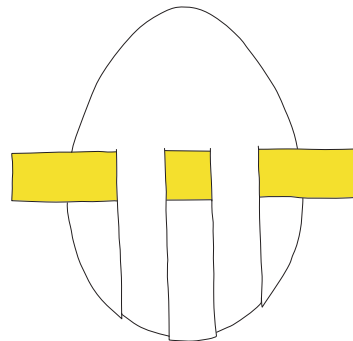

Neatly cut out the eggs and strips once they're dry. Cut along the straight lines.

3

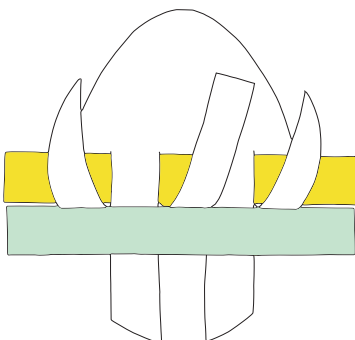

Alternately fold up the strips cut into the egg and place the first colored strip in the center of the egg.

4

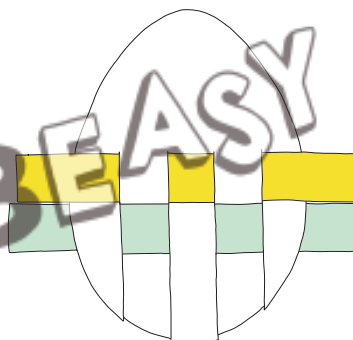

Place the strips you folded up back down.

5

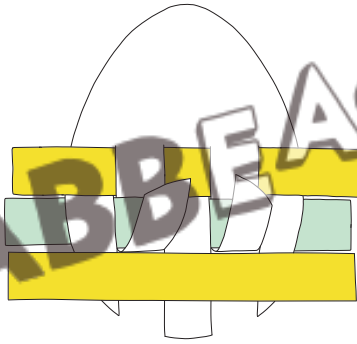

Fold the other strips up and place a different colored strip under the first.

6

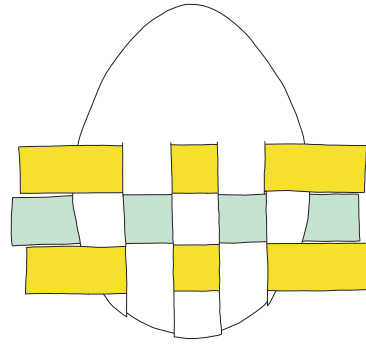

Place the strips you folded up back down.

7

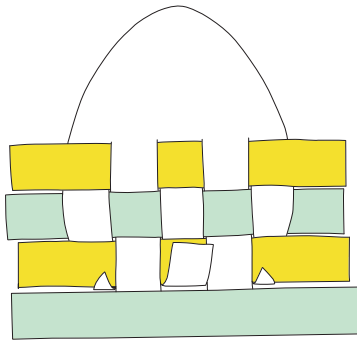

Now fold up the original strips you folded up again and place a 3rd strip under the 2nd one.

8

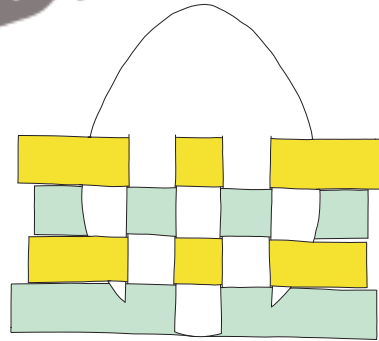

Again, place the strips folded up back down.

9

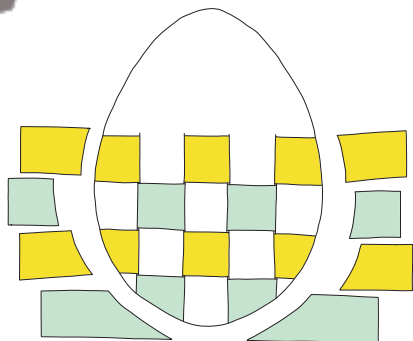

For the final weaving step, fold up the other strips' ends again and place the final strip under the 3rd one.

10

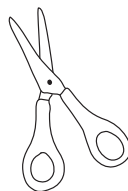

Place the folded-up strips back down. Glue the ends of those strips to the bottom strip with a glue stick.

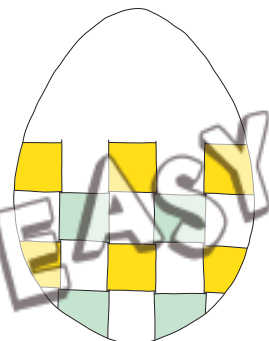

11

Carefully cut off the excess ends of the colored strips.

12

You can poke a hole at the top of the egg with a pin-prick needle and string it onto a long chain of eggs.
