HOW TO MAKE IT

Origami Bookmarks - Animals

1

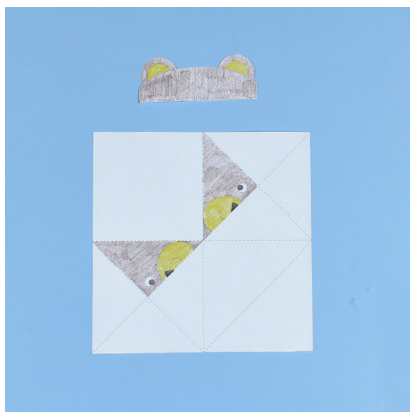

Print out your template.

2

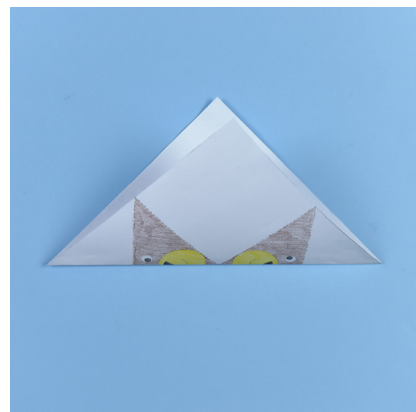

Color the template with colored pencils.

3

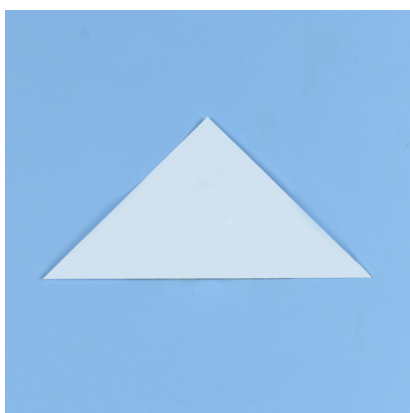

Cut out the square and extra pieces.

4

Fold the square in half diagonally to form a two-layered triangle. Make sure that both sides of the face are on top.

5

Flip the triangle over so that the blank side is on top.

6

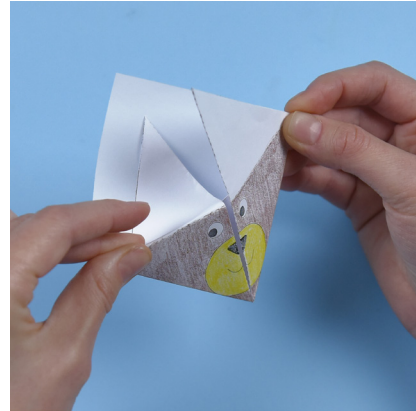

Fold down the top half of the triangle on top, creating a kind of pocket.

7

Fold the bottom right and left corners of the triangle up to the top corner to make a square. You'll now see the face again.

8

Tuck the right and left corners into the pocket we created in step 6.

9

Glue the other parts onto the face.

10

Your bookmark is finished... WOW!
